# SELF-FEEDER FOR SHEEP

Type 'A'

COOPERATIVE  
FARM BUILDING  
PLAN NO. 5861  
(1 SHEET)  
PLAN EXCHANGE

This feeder is 15 feet long and has 30 feet of trough space. Capacity of the hopper is about 50 bushels. The bottom opening of the hopper can be adjusted for different types of feed.

Treat with preservative all wood in contact with the ground.

Complete working drawings may be obtained through your county agent or from the Extension agricultural engineer at most State agricultural colleges. There is usually a small charge.

ORDER PLAN NO. 5861, SELF-FEEDER FOR SHEEP.

If working drawings of this plan are not available in your State, write to the U.S. Department of Agriculture, Agricultural Engineering Research Division, Plant Industry Station, Beltsville, Md. The U.S. Department of Agriculture does not distribute drawings, but will direct you to a State that does distribute them.

Issued October 1959

UNITED STATES DEPARTMENT OF AGRICULTURE

Miscellaneous Publication No. 803
